EXPERIENCE

Product Design Consultant — 2026 – Present

MZM Labs Inc., Calgary, AB

- Consulting on product design for a design tools studio, shipping Figma plugins and workflow automation products
- Building with AI-integrated workflows: Claude, Figma, and modern serverless infrastructure from concept to deployed

Design Consultant — 2025 – 2026

AKMSecure, Calgary, AB

- Retained as design consultant to establish market presence for a quantum-resilient cybersecurity startup targeting enterprise defense contracts
- Delivered the complete brand system, responsive marketing site, and HubSpot CRM migration that positioned the company for enterprise client conversations

Co-founder & Lead Product Designer — 2008 – 2025

Katipult Technology Corp. (formerly JOI Media Inc.), Calgary, AB

Co-founded and led product design from 3 employees to TSX-V IPO over 9 years. Transitioned company from service agency to B2B SaaS platform for private capital markets.

- **Compliance-first design:** Shipped KYC/AML onboarding, accreditation verification, and electronic signature flows across 20+ regulatory jurisdictions. Reduced investor onboarding from 45 minutes to 12 minutes with 85% completion rate
- **Design system:** Architected and maintained the component library used across the product organization, with standardized patterns, tokens, and documentation that supported rapid scaling
- **Data-informed decisions:** Partnered cross-functionally with PM, engineering, compliance, and legal to synthesize user research, competitive analysis, and analytics into product roadmap priorities
- **Measurable impact:** Design initiatives across investor dashboard, deal management, and portfolio views contributed to platform growth: 150+ completed offerings, $2B+ processed, and industry recognition including EY Entrepreneur of the Year finalist
- **Product strategy:** Developed product vision and MVP strategy that transitioned the company from service-based to product-led, navigating ambiguity through 0→1 development
