Product Design Lead · Design Leadership for Regulated B2B SaaS Platforms

Calgary, AB · uxmeas.com · hello@uxmeas.com · linkedin.com/in/uxmeas

PROFESSIONAL SUMMARY

Product design leader for regulated B2B SaaS, setting UX strategy and design-system patterns that scaled across a multi-vertical platform. Reduced investor onboarding from 45 to 12 minutes and increased completion from 47% to 85% across 20+ regulatory jurisdictions. Led product design through a TSX-V IPO and now leads hands-on design for AI-assisted workflow products at MZM Labs.

EXPERIENCE

Head of Design (hands-on product design), MZM Labs Inc., Calgary, AB Mar 2026 to Present

Docs to Design (Figma plugin): Designed and shipped a Figma plugin that converts structured Word documents into native, editable Figma frames in about a minute, replacing a manual rebuild that typically takes about an hour.

Built FuzeHQ, a human-in-the-loop workspace that turns fragmented AI-agent activity into assignable, reviewable, and auditable workflows for operators.

Head of UX/UI, Katapult Technology Corp., Calgary, AB Jun 2020 to Mar 2025

Set UX strategy and led design for a B2B SaaS platform across 20+ regulatory jurisdictions. Established patterns adopted across multiple vertical markets.

Architected and maintained a component library and design system supporting rapid scaling across the product organization.

Led compliance-first design for KYC/AML onboarding and accreditation verification across 20+ jurisdictions. Reduced investor onboarding from 45 minutes to 12 minutes with 85% completion rate. Case study: uxmeas.com/compliance-ux.html

Partnered cross-functionally with PM, engineering, compliance, and legal to synthesize user research, competitive analysis, and analytics into product roadmap priorities.

Contributed to platform growth: 150+ completed offerings, \$2B+ processed.

Lead Product Designer, Katapult Technology Corp., Calgary, AB Jan 2014 to Jun 2020

Set product vision and led design for the MVP that transitioned Katapult from service agency to B2B SaaS platform.

Established the foundational UX strategy, UI system, and brand guidelines that carried the product from MVP toward TSX-V IPO.

Ran user interviews, usability testing, and a customer insights program. Findings shaped roadmap prioritization across multiple product verticals.

Design Co-Founder, JOI Media Inc., Calgary, AB Nov 2008 to Jun 2014

Co-founded and designed a B2B SaaS platform for private capital markets. Bootstrapped and scaled the product from first launch through sustained team growth.

Designed every product interface from first wireframe through launch and subsequent scale.

Lead Designer, ICOM Productions, Calgary, AB Feb 2003 to Nov 2008

Led design for broadcast and interactive media projects across multiple industries.
